

A Closer Look: Building Services

Start-to-Finish Capabilities

CESO's comprehensive approach to all we do sets us apart as multi-discipline experts and partners to our clients. As a full-service organization, we ensure the full engagement of our team at every step of a project's development. Keep scrolling to find out more about our building services opportunities and how our co-ops make an impact in their roles.

Architecture

What We Do

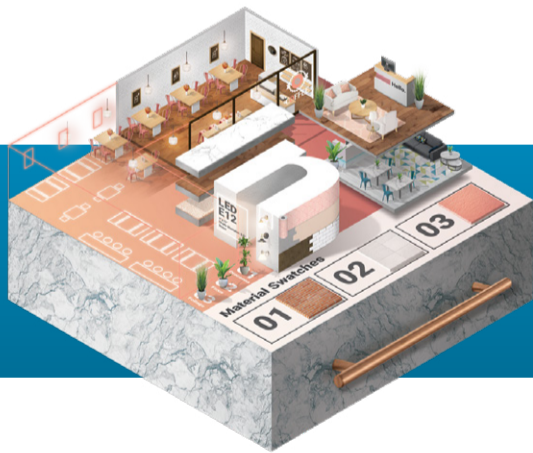

Our architecture team provides innovative solutions to complex scenarios and the expertise to produce quality designs and construction documentation for our clients. We have experience across several building sectors, including retail, restaurant, hospitality, and industrial. We build lasting and valuable connections with our clients, all aimed at expanding their reach across the nation.

- Prototype Development
- Rollout Programs
- Space Planning / Bubble Plans
- Construction Documents
- LEED Design Services
- Architectural Design
- Accessibility Audits
- Due Diligence
- 3-D Modeling
- BIM (Revit)

What You Will Do

As an architectural co-op, you can expect to engage in a variety of tasks and responsibilities related to real-world architectural projects. You will have the chance to gain hands-on experience, learn from experienced professionals, and contribute to the creation of built environments that positively impact communities.

- Learn architectural processes and procedures
- Prepare and modify architecture drawings using software like Revit, AutoCAD, and SketchUp
- Create flow charts and spreadsheets in support of team projects
- Partner with landscape architects, civil engineers, contractors, and other professionals involved to coordinate efforts for projects
- Assist in the preparation of construction documents, which could include plans, elevations, sections, and details for various architectural designs

Interiors

What We Do

Our team of designers has deep expertise in creating places that meet operational requirements while connecting emotionally with the target audience. Our creative approach to space ensures the development of thoughtful and expressive environments. We work with our clients to create a design solution that integrates with their unique personality.

- Space Planning
- Interior Architecture
- Lighting Design
- Signage and Wayfinding
- Fixture and Furniture Design
- Design Intent Guidelines

What You Will Do

As an interiors co-op, you will be involved in a range of projects, offering opportunities to gain hands-on experience and learn from seasoned professionals. Our primary emphasis is on delivering top-notch interior design services while nurturing collaboration and innovation within industries.

- Prepare and modify drawings using software like Revit, AutoCAD, and SketchUp
- Assist with interior designs incorporating space planning and furniture selection tailored for our clients
- Partner with architects, contractors, and other professionals involved to coordinate efforts for projects
- Help prepare detailed drawings, specifications, and documentation to communicate design intent to contractors, fabricators, and other stakeholders
